

**Welcome to a new logistics solution.
welcome to Deliver Plus**

A presentation for One Nucleus

November 2016

Why choose Deliver Plus?

About Deliver Plus

Established in 2005

A logistics management company

Optimising the selection and use of domestic and international couriers

Leverage our total customer base and our expertise to negotiate the best prices for you

Multi-courier Platform & network

Utilise globally recognised carriers such as DPD and UPS

Economy and Express options to balance speed with economy

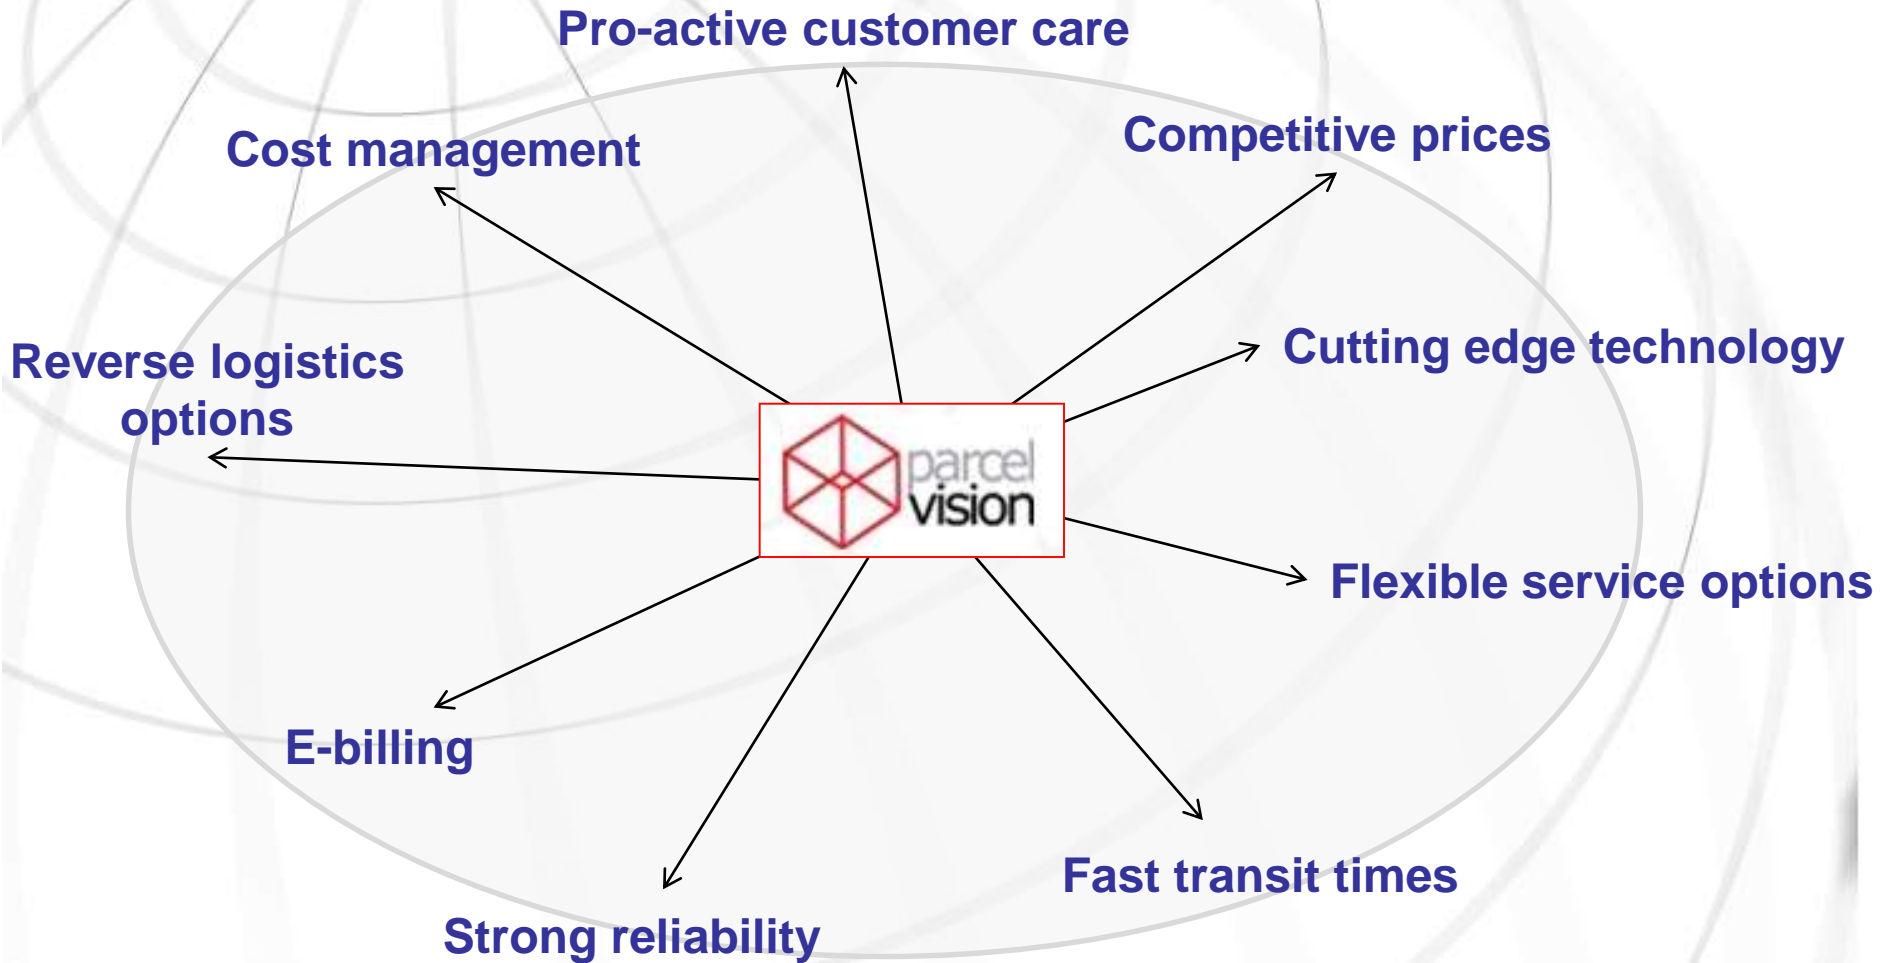

Proactive Management

Dedicated Customer support centre in London to proactively manage all of your shipments through to a successful conclusion

Technology

Powerful "ParcelVision" technology supported by an in-house team of over 30 highly experience software developers

Key Solutions with Deliver Plus

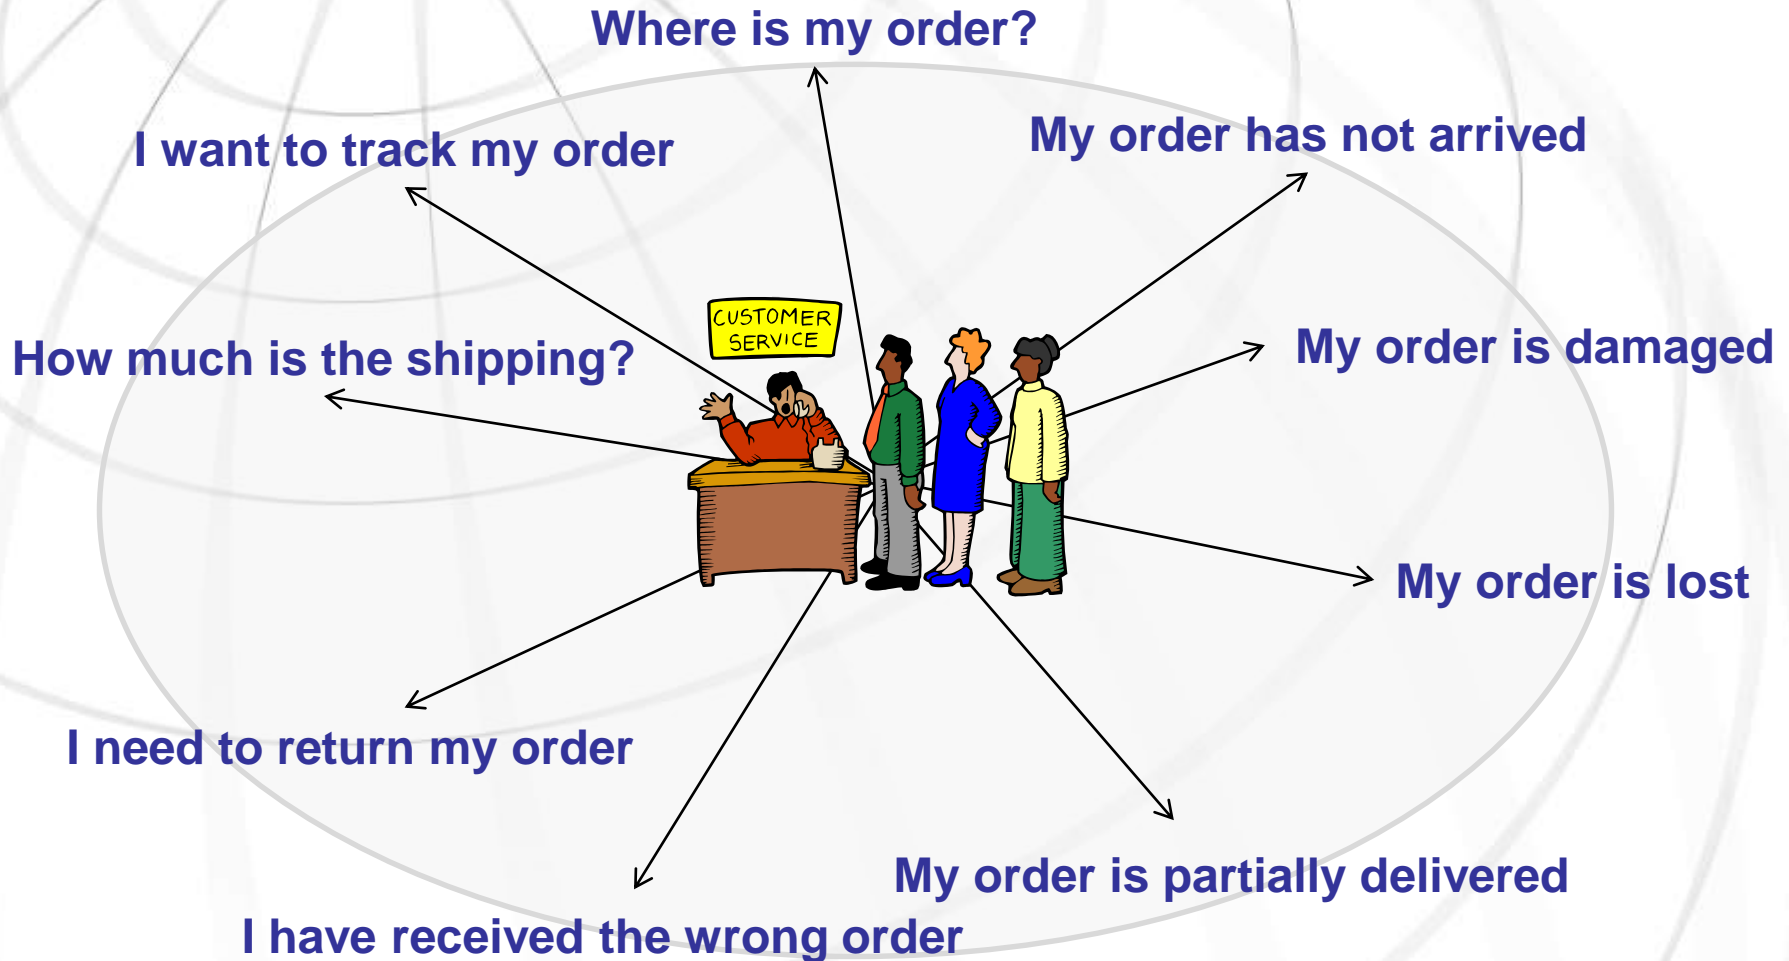

Service Enhancements

- Deliver Plus provides reliable day-definite delivery ensuring you are aware of the scheduled delivery date instead of a date range
- Deliver Plus offers best-in-class transit times especially in Americas, Europe and Far East
- Deliver Plus makes multiple delivery attempts to reduce returns
- Deliver Plus has full control and visibility of all shipments and does not hand over to third-party service partners
- Deliver Plus provides a tailored, proactive service with a dedicated, named account manager – one point of contact for all your needs

Example Customer Concerns

Service Enhancements

- Your account manager will track all orders to ensure delivery is successfully attempted and achieved
- If there are any exceptions, your account manager will proactively work with the carrier / customer to have the issues resolved
- You will receive less customer concern calls as we will be liaising with your customers directly and resolving any problems
- The Deliver Plus website allows you to send an email to your customer so they can track their orders
- You can request 'return' shipments and Deliver Plus will take care of the rest, providing a swift and automated returns process for your customers

Key Benefits

- Enhanced day-definite transit times with superior reliability and faster speed to market
- Dedicated named account manager to manage all your shipments and resolve any concerns
- Multitude of service options to balance speed with economy whilst ensuring your customers receive their orders swiftly
- User friendly website to book all shipments, request quotations and track all orders

Web Demonstration

ParcelVision technology

- Single web based interface between the Customer and our combined courier partner network (www.deliverplus.co.uk)
- Fully integrated with best-in-class globally recognised carriers (e.g. DHL)
- Domestic, international and third country collections and shipments
- Integrated preparation of all shipping labels and export documentation
- Full track and trace capabilities throughout entire journey
- Email notifications of shipments and delivery confirmation
- Online cost and transit time quotation to aid internal approvals process
