

Welcome to August's eNews

Welcome...

As I approach the five-year anniversary of becoming the One Nucleus CEO, it's my pleasure to welcome you this month's One Nucleus eNews. It's been a busy, and varied first half decade as CEO, a steep learning curve, some unexpected challenges and some major changes, but above all else so much positive and welcome support from our members, development of the One Nucleus activities and enjoyment. So thank-you to all those that have contributed to the journey thus far!

Below you'll find items, updates and links about some of our upcoming activities, alerts to discounts available, engagement opportunities and member benefits we hope you'll find of interest as we look ahead.

This will include updating you on our collaborations with United Airlines, Bidwells, Fish & Richardson and RSM who are all One Nucleus Partners or Corporate Sponsors helping us support our members. We seek your views on our ON Office Hours initiative and highlight some of the news that has caught our eye.

If what you are looking for is not covered within, you can find much more via the website, LinkedIn Group and Twitter streams and do look out for the other One Nucleus updates; People Pathways, The Meeting Place and BioWednesday Invitations that we disseminate over the intervening weeks between our eNews issues.

Virtual Innovation Centre (VIC) Update

As mentioned in July's eNews, the VIC continues to evolve to be more fully integrated with the wider One Nucleus support and activities. One element we now seek our network's views on is the developing **ON Office Hours** initiative within the programme. [Read More...](#)

Proud to be Seen with our Members at BIO-Europe 2022 - Support for Members

Would you like One Nucleus to present your company at BIO-Europe in Leipzig on 24-26 October 2022? We're taking a booth and would be pleased to showcase your organisation to raise your profile with delegates. Packages available for our members, as well as non-members. [Read More...](#)

It's Time to Solve the Current Talent Crisis Together

Research shows that £3.3bn of apprenticeship levy funding has been returned to the treasury since 2019. Did you know that SMEs that have an annual wage bill below £3 million are eligible for 95-100% apprenticeship funding from the government? [Read More...](#)

Are You Familiar with 35 U.S. Code § 112 – Specification (and Why it Matters)?

There is always a temptation when a title or reference includes a legal or technical looking term such as 35 US Code § 112 to feel this is just for the domain of the patent attorney or lawyer. Of course, they are without doubt the ones who can

advise on how to be compliant - what can you do to ensure you are up to speed? [Read More...](#)

RSM UK Becomes Partner of One Nucleus

RSM, a leading audit, tax and consulting firm to the middle market has become a One Nucleus Partner. [Read More...](#)

United We Can Do More....

One Nucleus is delighted to welcome **United Airlines** to its Partner Programme, bringing benefits where possible to support our members growth and contribute to successful outcomes for all. [Read More...](#)

R&D Space

Growth stimulated by such progress comes with its own challenges such as access to capital, increasing demands for skills and talent, evolving leadership needs, expectation management of stakeholders eager for the outcomes and of course the need to accommodate the growth. There have been significant announcements on this latter front over recent weeks. [Read More...](#)

What's Caught Our Eye in the News this Month?

Another exciting month of sector news and it is always a pleasure to be highlighting the deal making and successes of those within the One Nucleus network and the role of Cambridge in delivering future Life Science innovation. [Read More...](#)
