Join us for the annual **Building Life Science Adventures** (BLSA) careers conference on 28-29 March 2023. Creating careers, not just jobs, is a two-way process between those seeking to build their adventures in science and those seeking to build the best teams. This One Nucleus careers conference is **free to attend** and a chance to fill knowledge gaps, debate best practice and connect to enable success.

What is the Recipe for Success?

We are delighted to announce that Tom Froggatt, CEO of Singular Talent, will be Chairing the opening panel on the topic of 'What is the Recipe for Success?' alongside fellow panellists; Mark Treherne, BBI Cambridge; Ana-Maria Ivanus, Start Codon; Flic Gabbay, tranScrip. Join our expert speakers to discover what skills you need to build a successful career in Life Sciences.

“There are so many potential paths you can take through your Biotech career, and building the right skillset is crucial to creating a career you’re passionate about. As the world changes, new areas of expertise become important while others remain consistent through the decades. We’ll dive into where the real demand is in today’s market and how you can position yourself for success.” - Tom Froggatt, Singular Talent

The Life Sciences Inspiration of the Year Award 2023

Throughout our careers we are surrounded by exceptional individuals within the Life Science industry and we wouldn't be here today without them. We are giving you the opportunity to nominate someone you know who has particularly inspired you during your career journey to date. Please submit your nominations to training@onenucleus.com including their full name, email address and 100 words maximum about why you are nominating them by **Friday 10 March 2023**. The winner will be announced on 29 March 2023 at the end of the final panel discussion.
