

FOR SALE: Mobile Category 3 Containment Lab - State-of-the-Art Biosafety Solution

Location: Cambridge, UK - POA

VIEWINGS AVAILABLE BY APPOINTMENT.

We are pleased to offer a high-performance, **mobile Category 3 containment laboratory** designed for advanced research and testing in the life sciences and infectious disease fields. This fully equipped, transportable lab provides a very high level of safety and flexibility for scientists, researchers, and medical professionals who require a controlled, secure environment for high-risk biological work.

Key Features:

- **Comply with UK & EU Regulations:** Meet all the stringent standards set by the Health and Safety Executive (HSE) and other relevant authorities for Category 3 containment. Subject to your work and own Risk assessments/HSE application.
- **Robust Biosecurity Measures:** Includes HEPA filtration, airlock systems, negative pressure controls, and enhanced safety protocols for handling hazardous materials.
- **Mobile & Self-Contained:** Easily transportable to different sites for relocation or temporary research needs.
- **Advanced Laboratory Equipment:** State-of-the-art equipment for microbiological research, including biosafety cabinets, UPS, Network connections and air pressure monitors.
- **Real-Time Monitoring:** Environmental monitoring systems to ensure optimal conditions and alerts in case of safety issues.
- **Secure Access and Personnel Safety:** Restricted access areas with stringent entry and exit protocols. Single code access, thumb print or RFID tag access. Engineering access also available.

Why Choose Our Mobile Category 3 Containment Lab?

- **Flexibility:** Ideal for organizations that require a mobile solution without compromising on safety or functionality.
- **Cost-Efficiency:** Save on building and maintenance costs for a permanent containment facility.
- **Rapid Deployment:** Available for immediate use, with minimal setup time.
- **Durability and Reliability:** Built to withstand demanding environments, ensuring consistent performance wherever needed.

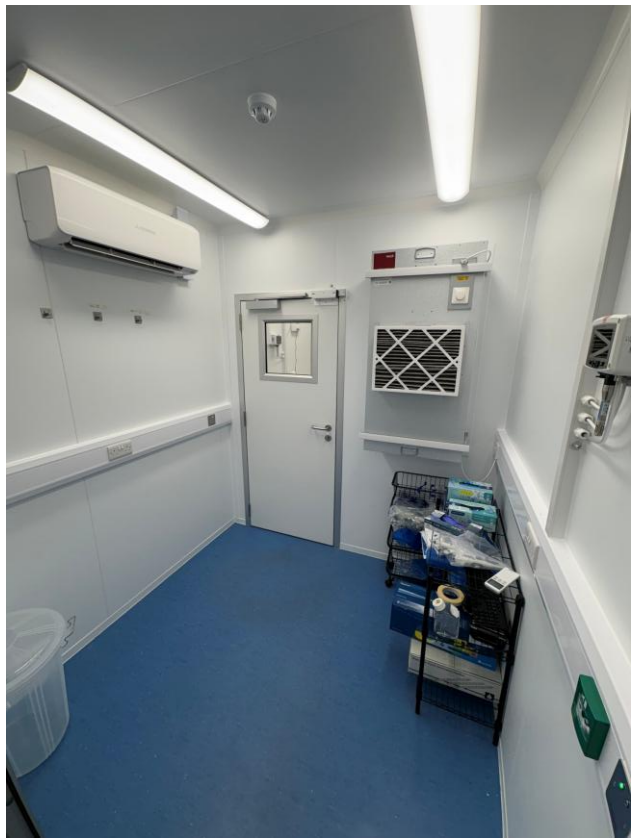

Suitable for **public health agencies, research institutions, pharmaceutical companies, and emergency response teams** requiring an adaptable, safe, and high-standard biosafety solution.
