Webinar: The Patient Experience – Empowering Patients | Free to Attend |

27 January, 17:00-18:00 hrs

This session delivered by One Nucleus member Waracle is part of an exciting series on Digital Health that will bring together guest speakers from across the sector. Digital Health empowers patients to manage therapies, consultations, diagnostics and more while improving the visibility of symptoms and physiological changes. Through mobile and wearable technologies, patient engagement gives control over many medical touchpoints improving clinical capabilities and resource efficiency. During this session, a panel of Digital Health industry experts will discuss the developments in digital technology putting patients in control. [More event information.](#)

Webinar: Life Sciences - Cyber Market Update | Free to Attend | 2 February, 10:00-11:00 hrs

This session delivered by One Nucleus member Gallagher is part of a Cyber Insurance and Risk Management marketing campaign to update and educate companies in the Life Science industry regarding the fast evolving nature of cyber threats. Criminals are finding increasingly innovative ways to exploit Life Sciences companies for monetary gain. During this session, Gallagher's Cyber Risk Management team will explore the different tactics employed by cyber criminals, report on cyber risk trends and offer insightful and educational demonstrations involving real-time data on what Life Science companies need to be aware of. Presentation Skills for Scientists

16 February, 09:00-17:00 hrs

One Nucleus member discount available. This One Nucleus training course is aimed specifically at the practising scientist. Objectives include helping delegates to identify their strengths and weaknesses in presenting a scientific talk, both in verbal delivery and in the organisation of visual material and to provide detailed guidance on both of the above aspects of scientific presentation so that delegates can use this for their own professional development. ON Events

1 February, 13:30-14:30 hrs | Webinar: VIC Workshop – Best Practices to De-risk Your Fundraising | Free to Attend | In

collaboration with One Nucleus VIC partner Oyster Venture Partners. As fundraising occupies a significant portion of Life Science entrepreneurs' lives, it is essential to approach it in the most efficient way in order to maximise chances of success. Preparation for fundraising follows a range of steps that can be optimised. These include the investment proposition definition, investors scouting and due diligence, and as they evolve with funding rounds, understanding how to get them right and avoiding pitfalls is essential. This workshop will review the key elements to prepare for follow-on fundraising whilst covering examples of key do's and don'ts.

2 February, 17:00-19:00 hrs | BioWednesday Webinar: Science, People, Infrastructure and Geography – Where is Diversity Most Important to Scaling Life Science Innovation | Free to Attend to One Nucleus Members | The panel will discuss what are the key factors necessary to attract the required mix of key elements that enable scaling of great science and innovation into social and economic returns in 2022 and beyond. This session will be offered in a decentralised approach where registered attendees can either join individually online or gather with others at one of the physical hubs (out of Norwich Research Park, Queen Mary Enterprise Zone in London, Discovery Park in Sandwich and We Are Pioneer Group in Nottingham) and network in-person following the panel discussion.

9 February, 14:00-15:00 hrs | Employer of Choice Webinar: Creating a Diverse and Inclusive Workplace - an LGBTQ+ Perspective | Free to Attend | This session will champion diversity and the positive steps forward that Biotech and Pharma organisations are making to be inclusive and create equal opportunities for all. Our panel will cover personal experiences, the ups and downs, how to attract diverse talent into the sector and what the future might look like.

23 February, 19:00 -21:00 hrs | In-Person: BioIVT – One Nucleus Advanced Therapeutics Networking Mixer | Free to Attend | Join us for a social evening in collaboration with One Nucleus Partner BioIVT at Scale Space located on Imperial College London's White City Campus. An opportunity to see BioIVT's impressive new blood donor centre, whilst enjoying refreshments and meeting new business contacts.

1-2 March | Online: Building Life Science Adventures 2022 | Free to Attend | We look forward to bringing together students, early career seekers, employers and universities across two days to discuss how to create and access great careers within the Life Science industry. There are opportunities to Support and Sponsor to highlight your company's Employee Value Proposition to attract and retain the best team. We are delighted to already have the following organisations onboard as Supporters and Sponsors: CatSci, tranScrip, Boyds, Precision Life, Scendea, Roslin Cell Therapies and Babraham Research Campus.

16 March, 12:00 -14:00 hrs | In-Person: Networking Mixer | Free to Attend | Hosted by One Nucleus Partner Stevenage Bioscience Catalyst, we invite you to join us for in-person networking over lunchtime refreshments.

If you would like to register for any of the events above, follow the link [here](#) and select the relevant event in the list.

Training Courses

9-10 March, 09:00-18:00 hrs | In-Person: Biological Safety: Management and Practice (IOSH Approved) 2 day course | One Nucleus Member Discount Available | Aimed at developing the competency and confidence of those fairly new to the role of Biological Safety Officer, but experienced BSO will also benefit from the course.

15-16 March, 09:00-11:00 hrs and 14:00-16:00 hrs | Online Introduction to Drug Discovery: From Idea to Clinical Candidate 2 day course | One Nucleus Member Discount Available | This course is a "one-stop-shop" outlining the major scientific tools of drug discovery. The focus is on small molecule drugs with comparisons made with biologics.

24 March, 09:00-17:00 hrs | In-Person: Introduction to Drug Development – From Candidate Selection to Patients in Healthcare | One Nucleus Member Discount Available | Helpful for non life-science technical roles in our sector – IT, Finance, HR and Admin staff and also early research professionals who wish to broaden their knowledge of later stage development. An ideal follow on from the 'Introduction to Drug Discovery' course.

If you would like to register for any of the courses above, follow the link [here](#) and select the relevant course in the list.

External Events

26 January, 18:00-19:40 hrs | Online: Cambridge New Therapeutics Forum (CamNTF) | Free to Attend | This meeting of the Cambridge New Therapeutics Forum will be hosted by Office for Translational Research / Maxwell Centre, University of Cambridge.

28 January, 09:00 hrs | Online: Advanced Therapy Showcase in Tokyo # 2 | Life Science Innovation Network Japan (LINK-J) boldly launched the partnering event series "Advanced Therapy Showcase in Tokyo (ATST)" with its first edition successfully held back in January 2021. Now they are pleased to announce that the second edition of the series, the ATST#2, is going to be held on Friday, January 28, 2022. The ATST#2 features live-streaming company presentations and pre-arranged 1-on-1 business partnering meetings.

28-30 March | BIO-Europe Spring® 2022 | One Nucleus Member Discount Available | The sixteenth annual BIO-Europe Spring® 2022 conference will be held on March 28-30 in Basel, Switzerland. There are two ways to attend BIO-Europe Spring® 2022. Firstly, the All-Access Pass will allow a delegate to attend the event in person on March 28-30, participate in virtual one-to-one meetings on April 4-6, and access to all on-demand content before and after the event. Secondly, the Digital Access Pass will allow a delegate to participate in virtual one-to-one meetings on April 4-6 and access to all on-demand content before and after the event. **One Nucleus members can receive 10% discount for registration.**

26-27 April | BioTrinity 2022 | One Nucleus Member Discount Available | BioTrinity 2022 is supporting in-person re-engagement of the Life Science industry and will feature pre-scheduled live and in-person private partnering meetings during the two-day physical conference as well as a bonus third day of virtual only partnering on Thursday 28 April. **One Nucleus members can receive 10% discount for registration.**
