

Welcome to this month's eNews

What a pleasure to be welcoming you to this month's edition of our e-newsletter. It has been great to see 2023 start off with numerous positive announcements from various perspectives among our network.

We have seen members announcing investment, expansion and collaborative deals; some (cautious) optimism after a hectic JP Morgan Week; exciting updates regarding progression of lab space developments; and closer to home I am delighted to see staff additions and changes in the **One Nucleus Team** that mean we are well placed to support our members on their onward journeys to success.

More details on some of these below, but don't forget you can stay fully up to date on our news, upcoming events and more via our [website](#), [LinkedIn](#) and [Twitter](#) channels or feel free to get in touch to discuss any related matters.

Tony Jones, CEO, One Nucleus

Week Commencing 3 July 2023 | Cambridge UK
