

People Pathways | February

Your Monthly Round-up of Employee Engagements Opportunities

Welcome to this month's People Pathways Newsletter !

Inside this month's newsletter we're spotlighting one of our most popular training courses plus upcoming events as well as opportunities to enhance your Employee Value Proposition and support your organisation with a successful year ahead.

One Nucleus Training Courses

You can view our [upcoming courses](#) and for more information about our in-house course offering, please contact training@onenucleus.com.

On 16 March, we will be holding one of our most popular courses, **Introduction to Drug Development: From Candidate Selection to Patients in Healthcare**.

This course is designed to help individuals develop their understanding of the steps and activities taken to bring new drugs to market safely and effectively.

Places are still available, for more information and to register, [click here](#).

Register NOW for Building Life Science Adventures careers conference on 28-29 March 2023 [Read More...](#)

This two-day online careers conference attracts an international audience of exceptional employers, students, early career seekers and universities.

Position yourself alongside Event Sponsors, [Researcher](#) and [SLAS](#) and Event Supporters, [Domainex](#), [London BioScience Innovation Centre](#)

(LBIC) and Babraham Research Campus by **Sponsoring (£1000 + VAT)** or **Supporting (£250 + VAT)** to highlight your company's Employee Value Proposition to attract and retain the best teams. Find out more about the [packages](#) or [email](#) us with any questions.

Learn More About: The SLAS 2023 Building Biology in 3D Symposium in Cambridge (20-21 April 2023) [Read more here...](#)

This two-day symposium will address the successes and limitations of using 3D systems in biological discovery and applied research. By acknowledging the need for improvement and advancement to ensure widespread adoption, SLAS brings together scientists across industry, government and academia to tackle 3D trends, 3D workflow optimisation and innovation in 3D space.

SysMIC: Online Training in Coding, Modelling & Data Analysis - STARTS SOON!

The next SysMIC Module 1 Course will start on Monday 24th April 2023.

The SysMIC course is run online from University College London and enables bioscience researchers to access an extended programme of training in coding, modelling and data analysis techniques.

The module has a fully flexible format and each year UCL welcomes over 300 participants from across the UK research community who come from a wide range of academic (and industry) backgrounds, and the module is approved by the Royal Society of Biology's CPD points scheme.

Latest Mentoring Vacancies:

1. Do you have experience in helping businesses with a background in biostatistics and bioinformatics consulting? A biostatistician and managing director for a start-up company is looking for extra guidance and help to overcome particular business hurdles.
2. Looking for someone with experience in molecular diagnostics/molecular biology within UK Life Sciences. A PhD student in molecular and translational cancer research is looking for an insight into the industry and the steps required to take a career path into executive roles.

Can you help? Contact training@onenucleus.com

Member Appointments:

NRG Therapeutics appoints Gilles Ouvry Ph.D. as Vice President of Chemistry to Advance its Mitochondrial Therapeutics for Neurodegenerative Disorders. [Read more...](#)
