

People Pathways | September 2024

Your Monthly Round-up of Employee Engagement Opportunities

Welcome to the September issue of Our People Pathways Newsletter!

This month's newsletter features our upcoming courses where places are limited; make sure to sign up to avoid missing out. New training dates are due to be announced, so please watch this space. You can also read about the Green Business Impact Programme which has a deadline of 30 September followed by new additions to the Training Sat Nav. In addition, you can find out more information about the Practical Application of Toxicology in Drug Development (PATDD) course co-organised by the Cambridge Academy of Therapeutic Sciences (CATS) and the British Toxicology Society (BTS). Finally, you can read the new Skills England report from the Department of Education.

One Nucleus Upcoming Training

There are very limited spaces on our upcoming courses. Sign up now to secure your place!

[16 October, Cambridge | Introduction to Drug Development: From Candidate Selection to Patients in Healthcare](#)

[17 October, Cambridge | Laboratory Health & Safety](#)

[21-22 October, Cambridge | Biological Safety: Management and Practice \(IOSH approved\) 2-day course](#)

[14 November, Cambridge | Introduction to Managing Life Science Projects](#)

Exciting news!

We'd like to thank Ed Zanders at PharmaGuide for delivering the Presentation Skills for Scientists course to our network for a number of years. As the baton is passed on, the course will be returning soon, with a new team of trainers. Keep an eye out for the upcoming dates.

Make sure to follow us on [X](#) and [Linked-In](#). For more information about our in-house course options, please contact training@onenucleus.com.

Green Business Impact Programme - Deadline to apply 30 September!

The Green Business Impact Programme is a fully funded support programme to help businesses and charities become more energy efficient and sustainable, designed for organisations in Cambridge, Huntingdonshire, and South Cambridgeshire.

The deadline to apply for this programme is fast approaching. [Have a look](#) at the slides from our webinar with Allia for more information.

Training Sat Nav - New Training Providers!

We've recently updated our Training Sat Nav, adding a range of new training providers, giving you even more options to find the right course for you or your company. If you are looking for a course that One Nucleus doesn't provide, whether it's technical or essential skills, the Sat Nav ensures you can easily discover the right providers to meet your needs.

[Take a look at the One Nucleus Training Sat Nav.](#)

Practical Application of Toxicology in Drug Development 2024

The highly acclaimed Practical Application of Toxicology in Drug Development (PATDD) course, coorganised by the Cambridge Academy of Therapeutic Sciences (CATS) and the British Toxicology Society (BTS) provides comprehensive training in toxicology as applied to drug development, catering to scientists from around the globe. Participants will gain a thorough understanding of non-clinical safety evaluation principles, with a strong focus on practical applications and interpreting safety data. Both European and US regulatory toxicology perspectives will be covered. [For more information and how to register see here.](#)

Skills England: Driving Growth and Widening Opportunities [Read here...](#)

The new Skills England report outlines steps to address the UK's skills needs by engaging stakeholders in dialogue, refining workforce definitions, and focusing on sector-specific skills gaps. It plans to create a UK-wide skills taxonomy, consult employers on high-value training, collaborate with regional administrations, and reduce reliance on overseas workers. Additionally, it supports initiatives to boost career progression, particularly for youth, and address employment barriers.
