

Welcome to this month's eNews

Welcome to the May 2023 edition of our eNews. Our regular opportunity to update our network on what we've been discussing this month.

As always, what occupies the **One Nucleus Team's** thinking is how we can best support our members in their current and future journeys to success. This includes peer-to-peer knowledge sharing at our **events**, which have included a debate on whether the '**UK is on Course to be a Science Superpower**,' hosting international visits and **training courses**.

Anticipation is rising also as **ON Helix 2023** comes over the horizon.

The articles below delve into some greater depth on the context of these activities, addressing questions around diversity, why we are discussing AI at ON Helix as well as how and why we are working with collaborators on enabling the international connectivity of our members. Follow the articles to see more about the **One Nucleus – United Airlines collaboration benefits** for members, and how '**Cambridge Wide Open Day**' is supporting a widening participation agenda for the cluster.

And there's more...don't forget you can stay fully up to date on our news, upcoming events and more via our **website**, **LinkedIn** and **Twitter** channels or feel free to **get in touch** to discuss any related matters.

Tony Jones, CEO, One Nucleus

Staying Connected with International Peers

Catch up on our recent international visits and collaborations to support our members and how you can engage with us at BIO2023 in Boston. [Read more...](#)

Putting Diversity at the Heart of What we do

Find out what our Corporate Sponsors Fish & Richardson recently discussed about the gender imbalance on patents in US and EU and other diversity. [Read more here](#)

The Power of AI Now and in the Future

Read about recent developments and check out the [ON Helix 2023](#) agenda to see how we will be discussing 'New Horizons in AI-based Prediction and Prevention.' [Read more here](#)

Building Life Science Adventures Review

Want to revisit golden nuggets from this year's BLSA Careers Conference? [Watch the sessions or gain key take-aways here!](#)

Feel Inspired this May with Opportunities to Grow Your Network

We have a great range of opportunities in the month of May 2023 for our members to meet each other as well as new contacts – all of which could be a step towards finding your next partner, client or investor! [Find out more here](#)
