Urban Frontiers in Science

It was brilliant to see delegates enjoying themselves at our BioWednesday social evening on 10 May, kindly supported by Kadans and Canary Wharf Group. There was high energy networking at The Lowback bar, Canary Wharf, as well as the opportunity to see the nearly finished laboratory facilities at the Innovation Centre for Life Science companies at 20 Water Street. We are looking forward to reflecting further on the topic of city-centric science locations at our upcoming networking event [Scaling of the Urban Science Park Destination](#) in collaboration with the London BioScience Innovation Centre (LBIC) on 13 June.
