Keynote Sessions on 6 July

Hear insightful views from industry leaders into challenges and trends which are shaping New Horizons for Bio Innovation.

Our [Keynote Programme](#) is packed with experts discussing trends in bio innovation, from early-stage research and technology to translation into new diagnostics, preventative tools or novel treatments. The most promising aspects of research into preventing age-related disease will be debated in our session [Longevity Depends on Understanding the Biology](#).

Keynote Presentation: Creating an Innovation Space

Edyta Wojtowicz
Earlham Institute

New Horizons in Genetic Screening with Hannah Stark, NIHR BioResource, Debora Lucarelli, Enhanc3D Genomics, Kate Harvey, Genomics England, Kerry Thompson, BC Platforms, Edyta Wojtowicz, Earlham Institute. Chaired by Priya Kalia, SciTribe.

New Horizons in Paediatric Medicines

Paul Branthwaite
tranScrip

Anna Moore
NIHR BioResource

Becky Bishop
PHTA Ltd

Beatrice Panico
Scendea

Becky Birch
The Brain Tumour Charit

New Horizons in Paediatric Medicines with Anna Moore, NIHR BioResource, Becky Bishop, PHTA Ltd, Beatrice Panico, Scendea, Becky Birch, The Brain Tumour Charity. Chaired by Paul Branthwaite, tranScrip.

New Horizons in Precision Oncology with John Lyons, Astex, Robin Carr, Myricx, Neil Jones, Cancer Research Horizons. Chaired by Sue Charles, Charles Consultants.

New Horizons in AI-Based Prediction & Prevention with Sven Sewitz, Eagle Genomics, Zizi Imatorbhebhe, Bios Health Group, Krzysztof Potempa, BRAINCURES, Stephen Baker, AstraZeneca, Jürgen Harter, CCDC Chaired by Parminder Lally, Appleyard Lees.

Longevity Depends on Understanding the Biology with Janette Thomas, Five Alarm Bio Ltd, Panteli Theocharous, PPD, Daniel Ives, Shift Bioscience, Delphine Larrieu, University of Cambridge, Rebecca Canter, Eli Lilly. Chaired by Adrian Toutoungi, Taylor Wessing.

When Do Good Neighbours Become Good Business Partners? With James Fry, Mills & Reeve, Claire Thompson, Agility Life Sciences, Mike Anstey, Cambridge Innovation Capital, Laragh Jeanroy, RSM, Laura Lane, Eli Lilly. Chaired by Mike Ward, Clarivate.

Who's Attending?

With a capacity of 300, spaces are filling up fast. Attendees are coming from across the biotech, pharma and tech sectors, along with investors and professional services. A full list of registered delegates can be found on the Conference App for those registered to attend and a list of companies attending can be found [here](#).

Raise Your Profile to this Key Audience

ON Helix is one of the most efficient ways, in terms of money and time, to meet with the One Nucleus ecosystem, which includes access to every stage of innovation. There is no time like present to secure your place to ensure you can take advantage of the networking available.

[Register](#) for ON Helix today, from £325+VAT, to make the most of your pre-event profiling, schedule 1-2-1 meetings during ON Helix, and access the content through the app for four-weeks post conference.

If you are interested in becoming a sponsor there is an option to run a digital Innovation Workshop on the 3, 4 and 5 July. Innovation Workshops can be an efficient way to reach out to a targeted audience.

For those interested in this option, the package comes at £1000 + VAT. More details [here](#).

Be Seen by our Network of Life Science Professionals

Acknowledging progress made in translational research by our industry we are looking for entries for the ON Helix BioNewsRound Award won in 2022 by [RevoluGen and the Quadram Institute](#).

Details of how to enter are [here](#).

ON Helix Fringe

Maximise your opportunity to make new connections with other delegates:

- Interactive [Innovation Workshops](#) addressing key business and technical challenges faced by life science companies
- A range of [In-Person Fringe Events](#) offering a great opportunity to mix and mingle.
