

People Pathways | January 2025

Your Monthly Round-up of Employee Engagement Opportunities

Welcome to the First Issue of Our People Pathways Newsletter of 2025!

This edition features an exciting line-up of opportunities and insights. **Discover** our upcoming One Nucleus training courses, covering key topics such as project management and drug discovery - be sure to note the registration deadlines! **Learn** how to create meaningful work experience opportunities through the 'Open Doors' webinar. Take advantage of a complimentary media training offer from Hawthorn Advisors; any feedback or interest would be highly appreciated. Additionally, we invite you to participate in research exploring managerial decision-making and corporate social responsibility as well as a survey about potential RA training.

'Open Doors' Webinar with Form the Future CIC - 24 February

'Open Doors' is a free webinar offering you the chance to discover how to create a supportive, welcoming, and inspiring environment for young people seeking work experience.

Even businesses that already offer placements often face challenges in making their

programmes effective and impactful. This webinar is designed to help you overcome these barriers and make your work experience opportunities truly stand out.

For more information and to register, [click here](#).

Interested in Complimentary Media Training? Let Us Know!

[Hawthorn Advisors](#), a leading communications agency with extensive experience in life sciences, is offering a complimentary media training session exclusively for One Nucleus members.

Whether you're announcing investment milestones, sharing clinical trial breakthroughs, or elevating your leadership profile, the team has successfully guided life sciences leaders to successfully land their story with media.

We're gauging interest for this potential session - spaces will be limited; [get in touch](#) to register your interest.

Regulatory Affairs Survey - Have Your Say!

We're conducting a brief survey to understand which regulatory topics are most relevant to our network. Your input will help shape future discussions and help create potential new training courses and/or webinars. This will take no more than 2 minutes to complete. [Please submit your answers here](#).

University College Dublin (UCD), School of Biomolecular and Biomedical Science - Survey

Given One Nucleus' focus on promoting best practices in areas such as sustainability, governance, and diversity, we kindly ask our network to take part in this research investigating cognitive flexibility, the ability to adapt mental frameworks, and its role in shaping managerial intentions to engage in corporate social responsibility (CSR). This study examines how adaptability influences decision-making processes in leadership, with the goal of offering actionable insights for fostering balanced and ethical leadership within life sciences and biotechnology sectors.

Please fill out the survey [here](#), for any questions, get in touch with the research project lead [here](#).
