

People Pathways | June 2024

Your Monthly Round-up of Employee Engagement Opportunities

Welcome to the June Issue of Our People Pathways Newsletter!

This month's newsletter features our newly added upcoming courses including the next Introduction to Contracts course, free to attend and kindly provided by Marks & Clerk. Register below to avoid missing out.

You will also be able to find details about our new BLSA SIG on Neurodiversity along with an insightful blog written by our CEO, Tony Jones, about the significance of being curious in research and innovation to result in success.

And finally, you can read about venturing into life sciences in a guest article written by Aon.

One Nucleus Upcoming Training

16 July, Online| BLSA SIG: Neurodiversity at Work - Self Advocacy and Inclusivity

Following on from our **Building Life Science Adventures (BLSA)** conference series, we are delighted to be continuing those conversations with a new BLSA Special Interest Group (BLSA SIG). This will be a series of shorter

seminars/workshops to deliver valuable advice and fill knowledge gaps on key topics to best support our members in retaining and developing teams.

Our first BLSA SIG will be on the topic of neurodiversity and its self-advocacy and inclusivity. This session will be presented by **Elisabeth Goodman** of RiverRhee Consulting.

Curious about success?

Success is built on being curious in research, innovation, and business, since asking the right questions, learning with others, and gaining understanding are the key to high performance. Tony Jones, CEO of One Nucleus, shares some thoughts on why nurturing curiosity and seeking answers is pivotal to personal and team success and how employers and team can take advantage of One Nucleus.

ON Helix at the Babraham Research Campus on 4 July is your next opportunity to be curious with your peers over a day of presenting, debating and sharing thoughts around New Horizons in Bio Innovation - is it your route to success? [Read more...](#)

Venturing into Life Sciences: The Critical Importance of Human Capital Due Diligence

Too many investments in life science companies are made without the appropriate human capital due diligence, which can lead to problems post-deal in areas like poor talent retention and excessive salary costs. Aon's Keaton Hoffman, Partner, Executive Compensation, Talent Solutions, and Matthew Robinson, Life Science Industry Leader, explore why getting the human capital due diligence right is vital and where venture capital firms and the wider private equity market should be focusing.
