

January 2024

# ON eNews

## Welcome to this month's eNews

Welcome to 2024 with One Nucleus. The past year, full of uncertainty, proved challenging for many in the sector. Whether for researchers wondering if the UK would rejoin the Horizon programme; investors and companies wondering if the financing landscape would improve; policymakers and payers challenged on budgets; or champions of longevity wondering how to incentivise a shift to a 'what's good for our health is good for the planet' mindset.

Despite all of that, we saw some exciting science and technology developments, great deals, investment rounds on all the above themes. Much of which was discussed at **Genesis 2023** and the [recordings are now available](#). The approaching JPM Week will undoubtedly set some of the mood music for the outlook, but we aren't forgetting the people factor, locally and globally in getting things done. We look forward to seeing you at the upcoming [One Nucleus Events](#), kicking off with our traditional [BioWednesday Pub Social](#) in London on 10 January for those not in San Francisco.

Whatever 2024 brings across financial markets, political elections, conflict or progress, I am confident the Life Sciences sector will respond with aplomb, as evidenced over recent years, to continue rising to the challenge of addressing unmet medical needs on a global scale.

The [One Nucleus Team](#) is very ready, willing and able to do all we can to support you on your mission and being a part of your journey to helping others.

**Tony Jones, CEO, One Nucleus**

**New Horizons for Bio Innovation**

**Get Ready for 2024 with these key exciting opportunities:**

### **Boston Bootcamp - Deadline 31 January 2024**

One Nucleus has launched its inaugural Boston Bootcamp, with the prize package including participation in a 2-day bootcamp programme, return Premium Economy flights LHR-BOS, 2 nights hotel accommodation and participation in pre-bootcamp preparatory sessions led by life science experts with experience of Greater Boston, and more. [Find out more here](#).

### **Building Life Science Adventures (BLSA) - 12-13 March 2024**

Not to be missed, this two-day, free, online careers conference attracts exceptional

employers, universities, and students along with career seekers and shifters. The panel discussions will provide valuable advice and grounding insight around how we can collectively ensure the Life Sciences sector is the best it can be for all. [Find out more here.](#)

### **BIO-Europe Spring – 18-20 March 2024**

Through collaboration with One Nucleus partner, the EBD Group, One Nucleus looks forward to supporting our members again this year at BIO-Europe Spring 2024 in Barcelona, where we will be exhibiting. Boost your visibility with this audience on the One Nucleus exhibition stand – [Find out more here](#)

### **Annual Awards Dinner - 21 March 2024 – Entries close 31 January 2024**

For the first time, life science innovators, companies and their supporters will be able to enter to celebrate their success in one or more categories of the One Nucleus Annual Awards. Tables available – [find out more here.](#)

### **ON Helix Conference - 4 July 2024**

Join us in Cambridge for ON Helix! Our one-day conference addresses key bio innovation trends, from developments in life science and technology research to their translation into new diagnostics, prevention tools or treatments. [Find out more here](#)

### **Genesis Conference – 4 December 2024**

Our end of year conference bringing key Life Science opinion leaders and stakeholders together to debate key trends, instigate deals and generate a vision of the future was a success in 2023 – look out for further details soon.

### **Develop Yourself in 2024!**

In addition to the BLSA conference above, One Nucleus engages in a portfolio of Learning & Development and employer support activities, including:

- A suite of [Training Courses](#) to enable staff development
- Thematic Groups - including HR, Marketing, Business Resilience and Employer of Choice to support business operations leaders
- Building a [Training Sat Nav](#) to help life science companies access the courses their staff need
- Open until 31 January 2024 our '[Getting To Know You](#)' survey is gathering insights to inform submissions to policymakers and other stakeholders
- Networking events and seminars for peer-to-peer knowledge-sharing and connectivity
- Access to our on-demand viewing resources via the One Nucleus

Full details available on our [website](#) where you can find our latest Downloadable Calendar.

## Make the Most of Your Corporate Membership

Be sure to visit our [website](#), [LinkedIn](#) and [X](#) for all our latest updates, and checking out the latest updates from our collaborators such as Business Weekly. One Nucleus Members can post news, jobs and events on our website. Tagging us on your social posts means we can share onwards to amplify a member's reach.
