

Welcome to this month's eNews

Welcome to this month's eNews. Our chance to highlight the opportunities to continue the network's key discussions, some recent news highlights from our members and opportunities for our members to raise their profile, save money and engage in the ecosystem. [Read more](#)

Tony Jones, CEO, One Nucleus

Week Commencing 3 July 2023 | Cambridge UK

New Horizons for Bio Innovation

BIO-EUROPE SPRING®

MARCH 20-22, 2023 // BASEL, SWITZERLAND

Working With our Headline Making Members: **Profiling with us at Bio-Europe Spring!**

It is fantastic to see so many success stories emanating from our members. These have included key platform technology expansions, investment rounds and grant winning from members including [CNBio](#); [Eagle Genomics](#); [Maxion Therapeutics](#); and [NRG Therapeutics](#). One Nucleus will be proudly showcasing our members and region to the life science industry at Bio-Europe Spring on **Stand #46**. Check out the opportunities to raise your profile with us [here](#). **Deadline to apply: 2 March!**

Creating Careers Not Just Jobs: Who is Recruiting in Life Sciences?

The life sciences industry is not short of opportunities, as demonstrated above and on the One Nucleus [Jobs Board](#). But what should employees and employers be looking for? Join the [BLSA online conference](#) to hear what works for both sides of the recruitment table. [Find out more here](#)

Cool Support for Translational Research: Are You GDP Compliant?

As CO₂ gas production costs rise and development and movement of therapeutics become increasingly complex, maintaining a robust supply chain is key to success. Hot after releasing their [GDP Regulatory Compliance guide](#), experts from Biocair will set out the key questions all translational research R&D leaders should be asking themselves at ON Helix 2023. [Read more here](#)

United Rather Than Divided by a Common Language in Boston? ON@BIO2023

BIO International Convention
5-8 June, 2023

Boston Convention & Exhibition Center - Boston, MA

It's only just over four months until the BIO International Convention rolls into Boston. Continuing last year's collaborations that included the [One Nucleus Trade Mission](#) and the [Genesis Debate](#), a series of sessions to bring our members together with their key US counterparts are planned for [BIO2023](#) along with discounts, UK@BIO activities and more.

Do You Have Insights to Share in Our Annual Review 2023? Your Chance to be Seen!

Final call on your chance to be positioned among the key movers in the sector in our [Annual Review](#). Providing key updates on One Nucleus activity alongside insight articles on the latest trends, such as Fish & Richardson's article on "Patent Strategies for Protecting Bioinformatics Inventions" from Principals Patrick Darno

and Peter Fasse. Perhaps a discussion that will emerge by those working with the recently announce [Open Targets:EMBL-EBI collaboration](#). [Read more here](#).

Meet Us At...

Meet Tony Jones, CEO of One Nucleus at [BioWales in London](#) on 14 March.
