

Welcome to this month's eNews

Welcome to this month's news from One Nucleus. While the Life Science sector continues to discuss, discover and deal with each other at a truly energetic pace, it is with great pleasure this month that I write about some very exciting developments at One Nucleus you may have been following as two significant initiatives take increasing shape.

Over the past weeks we have seen Labour produce its [Plan for Growth for UK Life Sciences](#), we've seen 'Deep Biotech' become a thing, and Amanda Micklus provided a very interesting and timely report entitled '[The Biopharma A List: Taking the Pulse of Newco Creation](#)', reminding us all that starting a new venture and raising cash is hard – so even more appreciation of those recognised below.

Get your Boots on for Boston 2024!

February saw the judging panel for the inaugural Boston Bootcamp take place. There was a massively strong field of entries, no less than sixteen of which were presented to the judging panel comprising twenty UK and Massachusetts based experienced executives. Read the [press release](#).

Who will be Crowned Best in Class?

February also saw the judging take place to shortlist the eight open award categories for the inaugural [One Nucleus Annual Awards](#). Launched to recognise all parts of the One Nucleus ecosystem. Check out who made the shortlists via the [press release](#).

And the Voting isn't Over – Now it's Your Turn?

Each year at the [BLSA conference](#), One Nucleus recognises one individual who others look to for their motivation, aspirations and role model. The Life Science Inspiration of the Year Award is voted for by you, our network. Check out the nominations and [cast your vote today](#).

Save with us for these Two Global Events!

Members of the One Nucleus team can't wait to catch up with you at two upcoming events where members can engage to save, raise profile and share their thoughts. Check out the opportunities available to the One Nucleus network at [BIO-Europe Spring](#) (Barcelona, March) and the [BIO International Convention](#) (San Diego, June).

It's been a really exciting time at One Nucleus, and the above are just a sample of what we and our members have been up to. As ever, you can keep up with the news from our members and One Nucleus via our [website](#), [LinkedIn](#) or [X](#) pages. The [News stream](#) contains numerous updates from our community. Enjoy the read!
