

Welcome to this month's eNews

Tis the Season to be Jolly!

It's a great feeling to be writing to our network as we head into the festive holidays and on the back of the team having delivered a fantastic Genesis 2024 conference last week. Even better to be writing when the presented content and discussion at the event and related Fringe events provided so much encouraging data and sentiment that the sector was in for an improving year ahead.

**Tony Jones, CEO
One Nucleus**

Looking into January 2025 and beyond, you'll find updated dates and details of upcoming One Nucleus member events, our main 2025 conferences and annual awards as well as opportunities through our collaborators. Perhaps there's no better way to start the year than engaging in the JP Morgan Week of activities in San Francisco. Check out the One Nucleus member opportunities below along with some member content around China's progress and an interesting use of memes to communicate a key challenge in society.

To stay informed of all One Nucleus updates, disseminate your company's news, or track the announcements from other members, you can make full use of our [website](#), [LinkedIn](#), or [X](#) pages. The [news stream](#) contains numerous updates from our community. Enjoy the read (and check out the new [One Nucleus website!](#))

Key Dates for Your 2025 Diary

Over the past 12 months, One Nucleus organised 41 events in partnership with 48 sponsors and supporters. These regular sessions were complemented by our flagship events, Genesis, ON Helix and the One Nucleus Annual Awards Dinner. Alicia Gailliez provides the essential dates for your diary in 2025. [Read it here.](#)

Reflections on Genesis 2024

With this year's exciting Genesis conference wrapped up, it was great to see such a capacity attendance to hear presentations, panel discussions, and fireside chats discussing the leading trends, best practices, and expectations of the year ahead throughout the day.

The Genesis Review, included in the new One Nucleus Highlights magazine, to coincide with BIO-Europe Spring, will summarise the key takeaways from the event.

This year, the week around Genesis was enhanced by the collaboration with RESI-London and numerous Genesis Fringe events, creating a buzz of connectivity, knowledge-sharing, and partnering to close out the year. Delegates are reminded that they have access to the conference app until 2 January to watch session recordings on demand and continue connecting with other attendees. If you are seeking to continue building your profile in this network, the Genesis Review is an ideal opportunity where sponsorship and advertising opportunities are available from £500 + VAT. Please contact info@onenucleus.com.

One Nucleus Engagement in JPM Week 2025

Each calendar year, a significant proportion of the world's life science dealmakers, and increasingly the corresponding service providers, head to San Francisco for the annual JP Morgan Week. Tony Jones, CEO of One Nucleus highlights the relationships One Nucleus leverages to enable our members to gain maximum return on their investment of making the trip. [Read more here](#).

Mememes Meet Microbes: Spreading Awareness About Antimicrobial Resistance

How CSIRO, Australia's National Science Agency, is using the power of memes to raise awareness about the growing threat of antimicrobial resistance (AMR) and its impact on global health. [Read here](#).

A Decade of Innovation, a Decade to Come - China's Biopharmaceutical Innovation

With an impressive 23% contribution to the global pipeline of innovative drugs, Mainland China's biopharmaceutical industry is scaling, facilitating advancements in healthcare accessibility and affordability through multi-level medical security systems and streamlined drug approval pathways. [This report from Clarivate](#) presents an in-depth analysis of these groundbreaking shifts and sets the stage for the decade to come.
